

CIRCULAR IDEAS

10:00 - 10:15

INTRODUCTION

Welcome and introduction to the day's events

-10:15-

PRESENTATIONS

Five students will present their research projects exploring creative design ideas which envision sustainable and circular futures
A Q&A feedback session lead by Daniella Jenkins will dive deeper into the ideas behind the work

-11:30-

TALK

PhD researcher Loula Mercedes explores practical ideas for design for circular economy with bio materials. She will describe her ongoing research working with coffee farmers in Colombia.

WORKSHOP

Join this online workshop were we will discuss the detail of designing for a circular economy - materials and processes - and the bigger societal challenges

14:00 - 14:30

TAKE A BREAK

Take a break, get some fresh air and we return for our final session

-14:30-

DISCUSSION

Laetitia and Cathryn will be reflecting on the past There and Back Again symposiums and asking how can we make circular change?
This conversation will be lead by Professor Becky Earley and will cover industry and academic perspectives
